EXPERIENCE

SOLENIUM

Hybrid, Medellin, Colombia

Frontend Developer

Oct 2023 – Jun 2024

- Revamped the entire landing page by integrating cutting-edge technologies and implementing a fresh design, resulting in a significant SEO improvement and a 331,6% increase in organic traffic within the first quarter.
- Started the development of an app for monitoring energy border meters, enhancing operational efficiency by streamlining data collection and analysis processes, projected to reduce manual monitoring time by 90%.
- Worked closely with the product and design teams, to understand the business requirements and prioritize and scope work accordingly, for me and my peers.

HOOLOLI

Remote, Medellin, Colombia

Frontend Developer

Oct 2022 – Dec 2023

- Led the development of a new project from the ground up, closely following the product requirements to deliver a high-quality product using React, Typescript, and Tailwind.
- Focused on continuously delivering features following best practices, code testing, and documentation.

MICROVERSE

Remote, San Francisco, CA

Part-time Code Reviewer

Oct 2022 – Oct 2023

- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and encourage professional standards and best practices.

EDUCATION

MICROVERSE

Remote, San Francisco, CA

Remote Full Stack Web Development Program, Full-Time

Mar 2022 – Oct 2022

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers in a cross-cultural environment.
