EXPERIENCE

SOLENIUM   Hybrid, Medellin, Colombia
Frontend Developer   Oct, 2023 – Jun, 2024
- Revamped the entire landing page by integrating cutting-edge technologies and implementing a fresh design, resulting in a significant SEO improvement and a 140% increase in organic traffic within the first month.
- Started the development of an app for monitoring energy border meters, enhancing operational efficiency by streamlining data collection and analysis processes, projected to reduce manual monitoring time by 90%.

HOOLOLI   Remote, Medellin, Colombia
Frontend Developer   Oct, 2022 – Dec, 2023
- Led the development of a new project from the ground up, closely following the product requirements to deliver a high-quality product using React, Typescript, and Tailwind.
- Focused on continuously delivering features following best practices, code testing, and documentation.

MICROVERSE   Remote, San Francisco, CA
Part-time Code Reviewer   Oct, 2022 – Oct, 2023
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and encourage professional standards and best practices.

EDUCATION

MICROVERSE   Mar, 2022 – Oct, 2022
Remote Full Stack Web Development Program, Full-Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers in a cross-cultural environment.
